Chairman Picerno asked if there were any County tax dollars and Ms. Biggs said no.

Chairman Picerno opened the duly advertised public hearing regarding this matter. Mr. Marsh Smith said this was a great idea, and said he wanted to plant another seed for the future. He suggested the Board consider reducing traffic during peak use by expanding Moore County Transportation Services to bus children to and from school, saying this could save money that would otherwise be needed to widen roads. There being no further speakers, Chairman Picerno closed the public hearing.

Upon motion made by Commissioner Ritter, seconded by Commissioner Von Canon, the Board voted 5-0 to approve the submittal of the FY 2024-2025 Community Transportation Program Grant Application to the North Carolina Department of Transportation and allow the Chairman to sign all documents associated with the request.

a statement from RULAC regarding compatibility concerns and Ms. Ensminger explained why the County's text amendments were sent to RULAC and noted this would not be in an accident zone. Chairman Picerno asked about the Accessory Use Table and if it was what could be done and not what could not be done, and Ms. Esminger said yes.

Commissioner Cook inquired about restaurants and Ms. Ensminger explained that this would allow food to be stored in a separate structure. Chairman Picerno asked if Environmental Health would go out and Ms. Ensminger confirmed that they would complete inspections. Commissioner Quis asked if food prep on a septic system would cause a problem and Crystal Hodges, Environmental Health Program Specialist, present at the meeting, explained that they would go through an

application process and the very first thing they would do would be to evaluate the soil. Commissioner Quis asked if it would be a separate system and Ms. Hodges said yes. She noted that some prep could be done in the kitchen in addition to storage. Commissioner Quis asked about the name, commissary, and Ms. Hodges said that was how the State referenced it. Chairman Picerno asked if there had been any reports of sickness from food trucks and Ms. Hodges said she could not think of any. Chairman Picerno asked how these would be regulated during the upcoming US Open and Ms. Hodges explained that food trucks generally were inspected three times per year and the kitchens got a separate inspection. Chairman Picerno noted that Environmental Health had been behind at one time and asked if this request for commissary kitchens would add a burden and Ms. Hodges said she did not think so as it would only be a handful. Commissioner Cook, also a member of the Board of Health, noted that the County would bring in inspectors from other counties to assist during the US Open.

Planning Director Debra Ensminger presented a request for a conventional rezoning from RA-40 to RA-20 at 452 Brown Road and noted that the Planning Board had voted 4-3 to deny the request. Chairman Picerno asked how to reconcile with the Land Use Plan and asked also if the Board said it was not consistent with the Plan if it could still approve the request and County Attorney Misty Leland said yes and that would also amend the zoning map of the Land Use Plan. Commissioner Von Canon asked if the owner had considered making the existing dwelling RA-20 but the applicant was not present to answer the question. Ms. Ensminger explained that the entire parcel would be RA-20. Commissioner Quis asked how many lots could be developed and Ms. Ensminger said just two with RA-20 zoning and just one with the current RA-40 zoning. County Manager Wayne Vest noted that there was construction going on at the existing home.

H. Planning - Public Hearing to Consider a Conditional Rezoning Request for Retail and Garden Center:
5307 NC 211 Hwy (Parcel ID 00020642) from B-2 to B-2-CZ, 4020 NC 73 Hwy, (Parcel ID 00021818) from RA-40 to B-2-CZ, Property Located on NC 73 Hwy (Parcel ID 20220140) from RA-40 to B-2-CZ), and Property Located on NC 73 Hwy (Parcel ID 20220139) from RA-40 to B-2-CZ)
Planning Director Debra Ensminger presented a request for a conditional rezoning for a retail and garden center. Commissioner Quis commented regarding the stormwater plan. He noted the property was at the intersection of 211 and 73 and the widening of 211 would increase the impervious surface. He asked if there would be a curb and gutter and regarding a retention pond whether there had been consideration to incorporate with DOT stormwater. Ms. Ensminger shared that DOT had representation at the PRT meetings and Commissioner Quis asked if she had also been a part. She said she had but they would have to go through the processes and requirements. Commissioner Quis said some of his comments were intended to go beyond this project regarding impervious surface and the area's topography. Ms. Ensminger shared that some of the residents were concerned but plans were altered, and the applicant could speak to that. Commissioner Quis asked if there were any uses

of tractor trailer storage and Ms. Ensminger said no, they would only be loading and unloading. Commissioner Quis asked about trailers and Ms. Ensminger said they would sell trailers. Chairman Picerno commented regarding stormwater and impervious surface and offered reminder that the Stanley Furniture building and others had been removed. He said he thought there would be less impervious surface when it (the DOT project) was done. Commissioner Quis said he wanted West End to grow the way the folks in West End wanted it to grow and as he thought about other communities that did not plan, this was the Board's responsibility.

Chairman Picerno opened the duly advertised public hearing regarding this matter. Mr. Mike Nichols (Paramounte Engineering) was joined by Branch Smith (Paramounte Engineering) and Gavin Melia (West End Development Group, LLC and Baseline Development Companies, LLC), and provided a presentation regarding the proposed project for the rezoning. It was explained that the plan had been carefully designed. Mr. Melia said they, too, were concerned about the Hwy 211 widening and had conversations with DOT. There was anticipated about a 5% increase in stormwater at the corner of the subject property that would happen whether or not Tractor Supply built there. Mr. Melia said they would collect stormwater from 100% of their area and pipe it into a storm pond designed to hold at minimum the 100-year storm event, and it would result in a net improvement in run-off. Regarding Commissioner Quis' inquiry about incorporating DOT and the proposed Tractor Supply run-off in the same pond, it was explained that there were a number of concerns Tractor Supply had about comingling DOT stormwater in their basin. It was expected that neighbors downstream would see a net improvement. Mr. Melia thanked the neighbors for their support and expressed his gratefulness to Ms. Ensminger. Mr. Nichols summarized the request/discussion. Commissioner Von Canon indicated that not everyone was excited about them taking five acres of residential property and developing in front of a 1903 church, btu said he thought Tractor Supply would do a good job. He asked if there would be bushes and shrubs behind the trees to be planted and Mr. Nichols said yes and said the plans shown were for post-DOT project. Commissioner Cook asked about the appearance and architecture and Mr. Nichols reviewed that what was being proposed was required by the County's Highway Corridor Overlay District. Commissioner Cook asked if they had spoken with the church and Mr. Nichols said yes. Commissioner Cook asked if they (Tractor Supply) would be open on Sunday and Mr. Melia said 9:00am-7:00pm. Regarding the appearance, Commissioner Quis said this project really did set the tone for West End and future development, and good quality would attract more good quality, with the appearance of buildings contributing significantly to that. He said he had raised the stormwater question for their benefit. There being no further speakers, Chairman Picerno closed the public hearing.

Upon motion made by Chairman Picerno, seconded by Commissioner Ritter, the Board voted 5-0 to adopt the Moore County Board of Commissioners Land Use Plan Consistency Statement Approval and authorize the Chairman to execute the document as required by North Carolina General Statute 160D-605. Upon motion made by Chairman Picerno, seconded by Commissioner Ritter, the Board voted 5-0 to approve the Conditional Rezoning of four adjacent parcels of approximately 5.99 acres to Highway Commercial Conditional Zoning (B-2-CZ) for Retail Sales and a Garden Center as follows as set forth in the agenda cover sheet: 5307 NC 211 Hwy, approximately 1.59

acres, owned by Southern Golf and Land, LLC, per Deed Book 5896, Page 149, Parcel ID 00020642 from Highway Commercial (B-2) to Highway Commercial Conditional Zoning (B-2-CZ). 4020 NC 73 Hwy, approximately 2.43 acres, owned by Southern Golf and Land, LLC, per Deed Book 5604, Page 221, Parcel ID 00021818 from Residential and Agricultural-40 (RA-40) to Highway Commercial Conditional Zoning (B-2-CZ).
